

QIII™ SPD

PROBE OPTIONS

QIII Surface Particle Detector

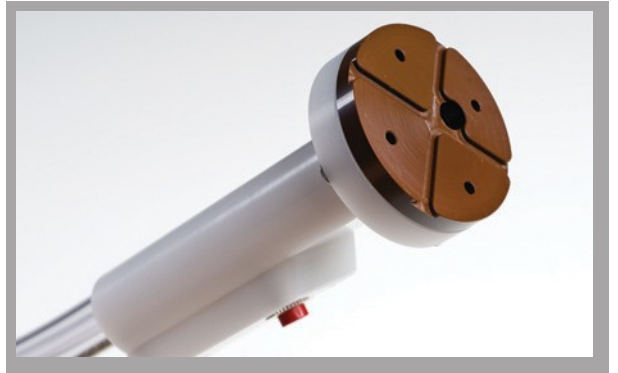

1/2" PROBE Most Versatile

APPLICATIONS: Process chamber walls, kit parts, robot arms, slit valve openings, ESC edges, bellows, and tight spaces.

2" PROBE Straight

APPLICATIONS: Process chamber walls and floors, large kit part surfaces, cleanroom surfaces, work areas.

2 PROBE* 90° angle

APPLICATIONS: Large areas at 90° from hand position, hard to reach areas.

QIII SPD

PROBE OPTIONS

QIII Surface Particle Detector

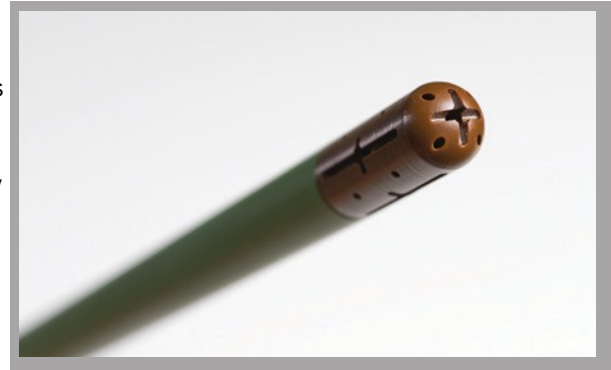

PENCIL PROBE

APPLICATIONS: Static readings of cavities, screw & bolt holes, hard to reach areas, roughing lines, small ports, any orifice larger than 5/8"(.625).

INJECTOR TUBE PROBE

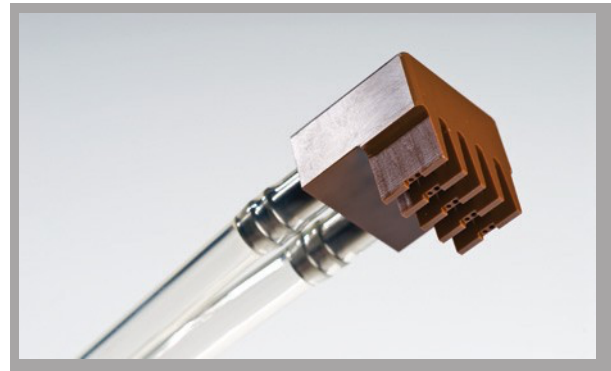

APPLICATIONS: Specifically designed for the interior of Novellus gas injection tubes, and other gas tubes, small gas lines, and any orifice larger than 3/10"(.30).

CASSETTE PROBES

(3 SIZES 65mm, 150mm, and 200mm AVAILABLE, 65mm Pictured)

APPLICATIONS: designed for 65mm (hard disk), 150mm, and 200mm wafer cassettes.

NOVELLUS INJECTOR TUBE PROBE

APPLICATIONS: Specifically designed for the single Novellus top gas injector.
